# PRISLISTA

2024

## **Terms of sale**

### **Prices:**

All prices are gross prices, excluding VAT and delivery costs, free our warehouse.

All prices are unit prices, unless otherwise stated.

Exchange rate from SEK to Euro is only on offer.

After 30 days, late payment are subject to a late payment fee of 18% of the invoice total.

We reserve the right to change prices without notice.

### **Deliveries:**

The shipping fee will be charged on the invoice, unless the Ex works is desired.

Cost of packaging will be added to the invoice.

In case of return of goods, the sender will pay the freight fee.

<b>Pallet</b>	<b>SEK</b>
Half pallet	85:-
EUR A pallet	105:-

The product is guaranteed flawless and uninjured when they are sent from our workshop .

Note on damaged goods must be made within 10 days of delivery.

Transport damaged, or lost goods, the recipient must give notice to the carrier.

### **Guarantee:**

The guarantee period is two (2) years unless otherwise limited or agreed upon for a specific product or a product batch.

The guarantee covers only manufactured or material of a product supplied by Djurås Verkstad AB.

Warranty does not cover normal wear and tear, on parts and consumable parts such as bearings, trekolan plate, hoses and fittings.

Defect product will not be replaced if it shows damage caused by improper handling or installation.

The warranty does not cover liability of any kind, direct or indirect damage to either person or property.

### **Guarantee Procedure:**

Before the repair is carried out shall Djurås Workshop AB contacted for approval.

We accept no repairs or complaints after the repair is completed.

**SLIREJ SS side filled:**

Is made of steel and then galvanized.  
The hatch is located on the side of the box.  
The box holds about 90 liters of gravel.  
Fits both bracket 600 and 650.

**SLIREJ ST top filled:**

Is made of steel and then galvanized.  
The hatch is located on the top of the box.  
The box holds about 90 liters of gravel.  
Fits both bracket 600 and 650.

**SLIREJ SK hatch both on the side and top:**

Is made of steel and then galvanized.  
The hatch is like the SS box located on the side and with a hatch on top of the box.  
The box holds about 90 liters of gravel.  
Fits both bracket 600 and 650.

**SLIREJ LS is a smaller box with the hatch on the side.**

Is made of steel and then galvanized.  
The hatch is located on the side of the box.  
The box holds about 60 liters of gravel.  
Fits bracket 600.

NOTE!

Used for smaller chassi buildings  
and where there is less space.

**Bracket system 600:**

Is a bracket welded together and galvanized.  
The bracket fits together with boxes SS, ST, SK and LS.  
600 stands for the total measurement from the front edge of the driver wheel and forward.

**Bracket system 650:**

Is a bracket welded together and galvanized.  
The bracket fits together with boxes SS, ST and SK.  
650 stands for the total measurement from the front edge of the driver wheel and forward.

Can be used if there is a need to put snow chains on the drive wheels.

Is pressurized by an air bell, wich you can divide the the pressure axle, and make the distance between the box and driver wheel bigger,  
so you can put snow chain on the wheel..

As an alternative to the 650 system with air cylinder you can use the bellow 650 system.

To reset the bellow 650 system, you only have to push the electric switch, and it will push back to normal again.  
Now its back to operating mode.

# Create your article title for SLIREJ

## Box title:

**SS** = SLIREJ sidofilled

**ST** = SLIREJ topfilled

**SK** = SLIREJ combinerad (side and topfilled)

**LS** = SLIREJ small sidofilled

## Bracket title:

**60** = 600 bracket

**65** = 650 bracket

## Surface treatment on the bracket:

**G** = Galvanized bracket

**O** = Untreated bracket

## Air Cylinder

**K** = air bell

**B** = Bellow

## Air tkit

**1** = Airkit for one side, controlled with one (1) electrical switch, left or right.

**2** = Airkit for both sides, controlled with two (2) electrical switches, left and right.

**3** = Airkit for bellow, one side, controlled with one (1) electrical switch, left or right.

**4** = Airkit for bellow, both sides, controlled with two (2) electrical switches, left and right.

## Pair or piece

**P** = Pair

**H** = Right

**V** = Left

## Plate position on the bracket

**C** = Centered

**F** = Moved forward

Placement of flat depend on the type of chassis, tires and suspension.

Made from manufacturer chassi specifikation and drawing.

**Example 1:** SLIREJ sidofilled with 600 bracket, galvanized, air bell, airtkit for pair = **SS60GK2P(C or F)**

**Example 2:** SLIREJ topfilled with 650 bracket, galvanized, air bellow, luftkit for one, left side = **ST65GB3V**

**Example 3:** SLIREJ small sidofilled with 600 bracket galvanized, air bell, airtkit for pair, left and right = **LS60GK2P(C or F)**
